

Not falling under CSRD requirements? VSME Isn't Mandatory... But It's Becoming Essential

Your largest clients are legally required to collect your sustainability data. Be ready before they demand it.

Join over 3,500 companies committed to combating climate change

Objections VS Reality

"It's not mandatory for us"

The reality:

It's mandatory for your clients subject to CSRD since 2025. They must report on their complete value chain. If they can't obtain your data, you risk being replaced by a supplier who can provide it.

"It's too expensive and time-consuming"

The reality:

The cost of losing a major client is far higher. VSME requires 90% less effort than full CSRD reporting. Starting now allows you to identify cost savings that offset the investment.

"Our clients aren't asking for this yet"

The reality:

They will within 12-18 months. When they require it, it will be too late to gain an advantage. Leaders are preparing now while their competitors wait.

"We're too small to make a difference"

The reality:

The cost of losing a major client is far higher. VSME requires 90% less effort than full CSRD reporting. Starting now allows you to identify cost savings that offset the investment.

Transform Pressure into Advantage

• Protect Your Key Accounts

Provide the standardized data your large clients need to meet their legal obligations. Become a secure and reliable partner.

• Simplify Your Workload

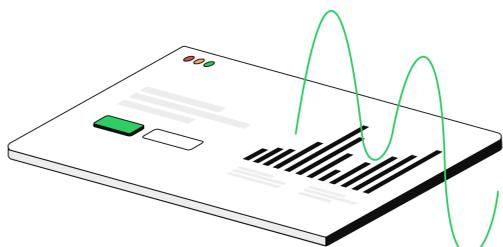

Streamlined questionnaire, 90% shorter than full CSRD. Generate compliant reports in one click.

• Gain a Competitive Edge

While your competitors scramble to respond urgently, you proactively demonstrate your readiness.

Key Statistics

90%

Less effort than full CSRD=

12-18 months

Until widespread adoption

July 2025

Official EU adoption of VSME standard

0

No mandatory audit (unlike CSRD)

2025 Legislative Updates

July 30, 2025

The European Commission officially adopted the VSME recommendation

Modular Structure

Basic module (11 disclosure requirements)
+ Comprehensive module (+9 additional requirements)

Value Chain Cap

CSRD-covered companies can only request VSME-level data from their SME suppliers

November 13, 2025

The EU Parliament is negotiating to raise the threshold for CSRD applicability to more than 1750 employees and more than 450M in revenue, meaning VSME will become relevant for more companies.
